CUG

Concept User Group

The **Concept User Group Inc** was formed at the inaugural conference held in Brisbane in March 1997. There were over 125 delegates present who voted for the formation of the Concept User Group to represent users in the Asia Pacific Region.

Each year since then has seen an annual conference held in various cities throughout Australia with a steadily increasing number of delegates attending.

The conferences are aimed at all users of the Concept suite of products. A key focus of the event is to provide an opportunity for delegates to develop their professional knowledge, exchange information on 'real world' experiences and understand or influence the future direction of these products.
