talent² user group

The Talent2 User Group was formed at the inaugural conference held in Brisbane in March 1997. There were over 125 delegates present who voted for the formation of what was then the Concept User Group to represent users in the Asia Pacific Region. Since then an annual conference has been held in various cities throughout Australia with a steadily increasing number of delegates attending.

The conferences are aimed at users of the Talent2 Works suite of products. A key focus of the event is to provide an opportunity for delegates to develop their professional knowledge, exchange information on 'real world' experiences and understand or influence the future direction of these products.

Transport

Australia has two major domestic airlines:

Qantas Ph 13 1313

Virgin Blue Ph 13 6789

and many other regional airlines.

Perth has a modern network of trains and buses.

Fares are quite cheap. Transperth, the local bus
operator, has a great journey planner
